

Control Distributors LLC has partnered with GE Masoneilan and become a Masoneilan Authorized Repair Center available 24 hours a day, 7 days a week!

Quality products combined with expert service have made GE® an industry innovator for more than a century, and GE®'s Masoneilan Authorized Repair Centers (MARC®'s) are a part of that leadership legacy. In addition to having the technical expertise and product knowledge, GE®'s MARC® operations are outfitted with the right tooling to inspect, diagnose, repair and recalibrate your equipment.

Control Distributor's service technicians are factory-trained, factory-certified technicians who have completed intensive classroom and hands-on training and passed thorough written and practical exams. Our facility must also complete regular audits by GE® Masoneilan, ensuring they comply with the company's stringent technical, service and business practice standards.

Features & Benefits

- Commissioning - Startup assistance to help ensure that equipment is performing to expected specifications
- Mechanical Inspection - Providing detailed reports of mechanical conditions
- Valve Repair - Returning your valves to "like new" condition
- Shut Down Planning - Helping to reduce outage or turnaround times
- Onsite Repairs - Bringing resources and equipment to the site
- Troubleshooting - Identifying root causes and providing solutions
- OEM Parts - Certified original manufacturer parts that meet the highest standards
- Retrofits - Upgrading equipment to meet ever-changing operating and environmental conditions
- Re-Instrumentation - Performance and efficiency improvements that can result in bottom line savings
- Asset Management - Innovative ValvKeep® asset management software
- Predictive Maintenance - Offering tools and expertise such as EVT-Pro to monitor the health of an asset and identify potential problems in advance
- Training Classes - Providing hands-on technical and practical training for your teams
- Site Surveys - Gathering data throughout your plant for asset management
- Remote and Real - Time-Valve Diagnostics, improved process reliability and reduced maintenance costs

Control Distributors and their MARC®-certified service technicians stand beside you, providing the service and support you need to keep your facility running efficiently and safely.
