**CONTROL**

# Control Distributors Quality Products and Services

**Baker Hughes** a GE Company/Masoniellan is a leading producer of reciprocating, rotary and severe service control valves, regulators, and field instrumentation. Major product brands include the Camflex® II eccentric plug rotary valve, Lincoln Log® and the SVI 2 digital valve positioner and controller. Your leader in Severe Service applications.

**Forum® Energy Technologies** supplies one of the most comprehensive offerings of quality valve products in the industry through our family of trusted valve brands. **ABZ™ Valves & Controls** resilient seated, double and triple offset high performance butterfly valves and automation accessories. **PBV® Valve** trunnion and flanged floating ball valves. **Quadrant®** flanged floating ball valves. **DSI® Valve** Cast and forged, carbon steel, chrome and stainless steel gate, globe and check valves.

*Alloy Valves and Control*

**Alloy Valves and Control, Inc.** is a global leader in innovative engineered ball valves and instrumentation devices for all types of fluid flow conditions in the piping process market.

**Flo-Tite Inc.** is a manufacturer of high quality ball valves ranging from standard commercial type ball valves to high-pressure metal seated control valves.

**Union Tech Z-Series Valves** comprise of both severe-service metal-seated and rising-stem ball valves. The Z-Series product line covers both zero-leakage critical isolation applications.

**Flowrox** has 40 years of experience in flow control and elastomer technology are obvious benefits we can offer and we are the benchmark for heavy duty pinch valves, slurry knife gate valves, pumps and systems.

**Thermo Ramsey** is a leading manufacturer of conveyor belt scales, tramp metal detectors, safety switches and inventory control instruments.

**Control Distributors** has achieved MARC® (Masoniellan Authorized Repair Center) certification and an ISN certification to better service our customers in house and in the field. We have a full machine shop and repair center in Chandler, AZ. Our On-Site services includes inspections, installations, retrofits, mobile machining, valve repacking, testing, commissioning and rebuilds. We provide valve diagnostics and maintenance for high performance control valves with ValScope-Pro. All technicians are MSHA Part 48 and CPR trained.

**Please call 480-966-4388 for your inquiries**

# Control Distributors Quality Products and Services

**ROTORK** is the world's leading designer and manufacturer of industrial valve actuators, valve control systems, valve gearboxes and accessories. Under the Rotork banner; Rotork Controls, Rotork Process Controls, Rotork Fluid Systems and Rotork Field Service all aid in providing the proper actuator for your application. With the acquisition of Jordan, Remote Control and Type K, Rotork has an automation package for just about any application.

**Gas & Flame Detection**

**3M Gas & Flame Detection** has brought together industry leading products from **Detcon**, **Simtronics**, **Oldham**, **GMI** and **Scott Safety** to provide our customers with fixed-point and portable gas detectors and controllers with proven reputations for quality and reliability.

**Bürkert** is a leading manufacturer of fluid control systems: solenoid, angle seat, ball, analytical and control valves; flow, pH, ORP, conductivity, pressure, temperature, level sensors and controllers.

**Spirax Sarco's** industrial flowmeters insertion and inline vortex, electromagnetic, transit time, BTU measurement, and flow processors are just some of the technologies offered by Spirax Sarco.

**Monarch International, Inc.** was established in 1982 to manufacture and market the first microprocessor based portable tachometers. With the addition of new models of tachometer and the introduction of the Nova-Strobe Series of portable stroboscopes, Monarch rapidly became the world's largest supplier of rotational speed measuring instrumentation and stroboscopic inspection equipment.

**Winters Instruments** has been in business since 1953 and our comprehensive product lines of pressure gauges, thermometers, diaphragm seals, transmitters, switches and accessories.

**RCM Industries** is a quality manufacturer of direct reading flow-meters, switches and transmitters. Options include dial calibrated gauges, faces and digital displays.

**Marsh Bellofram** is a world class manufacturer of instrumentation among thier company divisions: Automatic Timing & Controls, ATC Diversified Electronics and BelGAS.

**Dwyer** offers a broad range of competitively priced precision instruments for measuring, transmitting and controlling pressure, temperature, level and flow.

**Duro-Sense** provides temperature measurement for the aerospace and industrial markets; Thermocouples, RTD's, wire, cable and hardware. Specializing in exotic thermocouples and custom design applications.

**Please call 480-966-4388 for your inquiries**

Established in 1984, Control Distributors technical expertise and product knowledge continues to drive our commitment to providing outstanding sales and service to our customers. The company has grown to over 4000 customers in the industrial, food and beverage, mining, power and pipeline industries in Arizona and New Mexico. Our Service team is factory trained and certified. We specialize in the installation and upgrades from a single valve to plant-wide. We would love the opportunity to earn your business and demonstrate how we can save you money and keep your operation running at peak efficiency by providing solid solutions for your process application needs.

#### Service and Technical Support

- MARC certified repair center (Masoneilan Authorized Repair Center).
- Mobile Service Units bringing technology and cost savings to the customer.
- Full in house repair center and machine shop.
- On-Site inspections, installations, upgrades, retrofits, mobile machining, valve repacking and conditioning, component testing, equipment repair and documentation.
- Maintenance programs for high performance control valves and motor operated isolation valves, either in shop or on site.
- New valve assembly to OEM specifications.
- On-line Valvkeep™ is a customer interface for history, documentation and tracking.
- Experts in preventive maintenance and valve diagnostics in determining failures before they happen.
- MSHA Part 48 and CPR/First Aid certified.
- Registered with Browz, Ariba and ISN.
